After following Town Council and other local meetings this past year. Many hard topics are approached and handled for the local community. A topic that appeared many times on the Council's agenda was health care. It was mentioned a few times that some elected positions have the opportunity to have employer health care, with a kick back. Health care is such an important benefit that is needed by many Americans. This is of importance as rates, fees, and taxes are going up. Director Harris ran on transparency,

financial responsibility, and environmental items. Many times in the past year, Director Harris has reminded the Board and community about her platform, which was the reason I and others voted for her. From watching the PUD's meetings in the last year, hearing about the costly legal issues around town, Kim's continual poor behavior on the Board with petty attacks, I have to ask; where are Director Harris' opinions on important topics? Have the rate payers including myself squandered a vote? Or were we dupped by an elected official's personal agenda? We elected a person to make hard decisions not abstain when convenient. Or would Director Harris please tell the voters of Truckee did you pass on your health care from the PUD or Town or possibly are you taking a kick back from the PUD or Town? What other other costs have you incurred for the voters of Truckee and how much will you continue to cost us? .

Thank you,
Truckee Donner Public Utility District
